Officers Kill Themselves
Shanghai, March 21.—Reports received here from Port Arthur sources state that several of the younger Russian officers there, chafing under rebukes by their superior officers for alleged incompetency, have committed suicide. Within the last two weeks it is said fifty soldiers who were caught trying to desert have been shot.

Tien Tsin, March 21.—Gen. Smirnov, the new commander of the forts on the peninsula, is expected at Port Arthur daily. Stoesel recently sentenced three prominent Port Arthur merchants to fifty lashes for charging extortionate prices for necessities of life.

Another Cork for Pt. Arthur
Tien Tsin, March 21.—News has been received from Sasebo that fifteen steamships are bottled and chained together there in readiness for another attempt to bottle up Port Arthur.
Port Arthur Ambuscaded
Shanghai, March 21.—A letter from Port Arthur on Thursday says the Russians are barricading the land approaches with an elaborate system of wire fencing and all crucial points are mined. The weather is still arctic. Fifty deserters are reported to have been shot. Blockade runners are still landing provisions. The officials expect a long siege, as the Japanese fleet has not relaxed its watch on the fortress.
In Chemulpo to Stay
Chemulpo, March 21.—The Japanese are building permanent barracks on the shore and storing a year's supply of rice. An army of workmen is rapidly pushing the railway toward the Yalu. The war correspondents have made further attempts to reach the front, but were ordered to return to Seoul.
Peking Officials Uneasy
London, March 21.—Dispatches to the Standard from Peking say high officials at Peking are quietly sending their families south. They seem to anticipate difficulties with the Russians. The term Chung Chus is now taken to include all natives by whom Russians claim to be maltreated and robbed.
How Get Coal East?
St. Petersburg, March 21.—Everything is reported quiet at Vladivostok today, but disquieting rumors are current as to the conditions at Port Arthur. Moreover, the naval authorities are disturbed over their failure to solve the difficulty of forwarding coal from Odesa, Rostov and St. Petersburg to Vladivostok and Port Arthur, where the supply is diminishing. The warships are forced to economize and there is a rumor that a quantity of ammunition at Vladivostok has been found unsalable and unfitted for the guns.
Russians' Plentiful Plight
Tolito, March 21.—The military authorities have received information from their spies in Manchuria that the Russians are meeting enormous difficulties in the work of mobilizing their armies in the east. The Manchurian railway is blocked by snow drifts in many places and a number of bridges have collapsed. The weather continues intensely cold, with frequent blizzards. The spies report that the Russians have lost an enormous number of men disabled by frost and the breakdown of the commissariat. The stations are crowded with frost-bitten men.
Have Trouble
Tokio March 21.—The military authorities have received information from their spies in Manchuria that the Russians are meeting difficulties in the work of mobilizing their armies in the east.
The Manchurian railway is blocked by snow drifts in many places and a number of bridges have collapsed. The weather continues intensely cold, with frequent blizzards.
The spies report that the Russians have lost an enormous number of men disabled by frost and the breakdown of the commissariat. The stations are crowded with frost-bitten men.
Owing to these disabilities it is believed the opposition to the Japanese advance will be delayed for several weeks.
The Japanese are making uninterrupted progress forward. The troops are resisting the weather admirably.
The emperor opened the new session of parliament in person. In a patriotic speech from the throne he said Russia's insincerity compelled Japan to declare war. The chief business of the session will be to provide funds for the war, the cost of which is estimated at fifty-eight million sterling. Sixteen million has already been spent.
Station Troops
London, March 21.—Dispatches to the Standard from St. Petersburg say 40,000 Russians are stationed along the Ching Chung Yang river north of Asia, where a smaller number of Japanese are reported to be posted. Japanese movements are being closely watched by the Cossacks.
The first important action is expected to occur in this locality, and it is declared the Russians will win, owing to the superiority of their cavalry.
Everything is quiet at Vladivostok, but disquieting rumors are current as to the conditions at Port Arthur. The naval authorities are disturbed over their failure to solve the difficulty of forwarding coal from Odesa, Rostov and St. Petersburg to Vladivostok and Port Arthur, where the supply is diminishing.
The warships are forced to economize and there is a rumor that a quantity of ammunition at Vladivostok has been found unsalable and unfitted for the guns.
The Russians have made no extensive preparations to defend New Chang, the plan being to withdraw and burn the town in the event of a Japanese attack. A few temporary forts have been erected near the town. It is expected the Japanese will attempt a landing on the west side of Liao river. The Russians have embargoed food and coal. Oxen and provisions are at famine prices. The Russians are receiving regular consignments of flour from Tien-Tsin. The Chinese railway is working uninterrupted.
I am informed that the first Russian stand against the Japanese invasion will be at Liao Yang, where reinforcements are arriving nightly. A letter from Port Arthur on Thursday says the Russians are barricading the land approaches with an elaborate system of wire fencing and all crucial points are mined. The weather is still arctic. Fifty deserters are reported to have been shot. Blockade runners are still landing provisions. The officials expect a long siege, as the Japanese fleet has not relaxed its watch on the fortress.
Call in an Alliance
St. Petersburg, March 21.—The Novoye Vremya published a Paris dispatch declaring that it believes that a triple alliance between Japan, Korea and China has been formed and that this was the real object of Marquis Ito's visit to Seoul.

THE WORK OF THE TRACT SOCIETY

(Special by Scripps-Mellie.)
Washington, March 21.—Education of the heathen in mission schools will be largely in vain unless there is sufficient Christian and wholesome literature supplied to them in the language or dialect they speak after their school training is completed. Particularly is this true in India and Japan. This fact was emphasized at the annual meeting of the American Tract Society.

Tracts for Insurgents.

Six colonizers are la- boring in Cuba and Porto Rico. The new Sunday school paper in Spanish is accomplishing much good both among the children and their parents. The society has expended a total of \$750,000 in creating and circulating Christian vernacular literature at the foreign mission stations. The great need of the foreign field at the present time is a large increase of Christian literature.

BABCOCK'S FRIENDS RALLY QUICKLY TO DEFEND HIM

Declare the Attack Upon Him by the Demo- crats Was Out of Place, and Should Be Stricken From Record.

(Special by Scripps-Mellie.)
Washington, March 21.—Arising on the question of the highest privilege of the house Rep. Hepburn of Iowa said that Rep. Baker of New York, democrat, had violated the usages and courtesy of the house by insert- ing in the Record a newspaper, an attack upon Rep. Babcock of Wis- consin, charging him with loading down the mails with his own franked parcels so that the increased mails home might increase the business of the railroads and postoffices. The railroad it claimed allowed Babcock the right to issue passes. Hepburn and the article was a cowardly at- tack upon Babcock which should not be permitted upon the floor and moved that Baker's entire speech be expunged from the Record. Williams, democrat, from Mississippi said that only that part of the speech refer- ring to Babcock be stricken out and this motion was carried. Crammick of Tennessee offered a resolution of inquiry in the senate relative to the legality of the recent order of pension of the secretary of the in- terior. The matter went over under the rules.

YOUR CHANCE TO DO GOOD

Can Start Ailing Friends On The Road To Health By Recommending

Reckall Mucu-Tone

You can do a lot of good, practical work if you will convince yourself of the merits of Reckall Mucu-Tone, and then recommend it to a few of your friends who are dangerously near the line of "chronic invalidism."

Are there not many persons of your acquaintance whose constitutions are so feeble that they catch cold every time they are exposed to a draft? Then how quickly the little cold runs into a bad cold that hangs on for weeks and sometimes months, leaving the victim weak and half sick all the time, out-of-sorts and extremely melancholy most of the time.

We venture the assertion you have in your own family or circle of close friends several who are afflicted in just this way. They have catarrh.

In the head and nose and throat at first, but later the bronchial passages, then the lungs, stomach or bowels, or even the entire body, are involved. If you close the pores of the outer skin death results. Likewise when inflammation closes the pores of a portion of the inner membrane disease follows, growing more and more serious as the inflammation extends.

"I do not much like the idea of having my name used in advertising medicine, but I want all catarrh sufferers to know about this splendid remedy, Reckall Mucu-Tone. After suffering with catarrh for five years—after spending hundreds of dollars on salves, ointments and pills without benefit—I obtained my first relief through Mucu-Tone. I am now finishing my fourth bottle and do not think I will have to take any more. I believe I am entirely cured. You may therefore refer to me if you wish."

Reckall Mucu-Tone works through the blood. It goes direct to the affected part, drawing out the poisons, healing the sore membranes and revitalizing the blood. Its action is prompt and positive. From the very first dose its healing, strengthening influence will be felt. Three or four weeks' treatment is guaranteed to effect a complete cure.

You need not feel any hesitancy in recommending Mucu-Tone, because we sell every bottle with the clear, distinct understanding that we are to refund the purchase price if the purchaser is not more than satisfied. This is not a guarantee for advertising purposes only. For from it. We mean just what we say, which is that anyone who is not more than satisfied with Reckall Mucu-Tone can bring the empty bottle to us and get his money back, quickly, courteously and without red tape of any kind.

We believe in Mucu-Tone, and if it does not cure everyone to whom we recommend it we do not want his or her money.

Sold only at our store. Price, 50 cents and 89 cents per bottle. Mail orders filled.

For This Delightful

CALIFORNIA

TRIP OF THIRTY DAYS.

A number of inquiries are already being made of Prof. Turner, and if you wish to take advantage of the most reasonable outing yet offered it would be well to perfect your plans at once. The opportunity of visiting the principal points of interest in the West, with all the comforts known to modern travel at a figure within easy reach of every one, is certainly unusual.

Lay Aside Your Cares and Go. You'll
Never Regret the Money Invested 

PROF. J. M. TURNER, President of the Wisconsin Outing Club, is arranging to take a party to California, leaving this City May 7th. Thirty days will be consumed in the trip and from one to three day stops will be made at Omaha, Denver, Colorado Springs, Salt Lake City, Los Angeles, Cataline Island, Santa Barbara, San Francisco, Portland, Tacoma, Seattle, Spokane and St. Paul, thus enabling all who make the trip to visit places of interest in and about the cities given above. The entire trip, including railroad, steamer fares, all meals and berth in private hotel car for the 30 days enroute for

 **\$125.00** 

This amount in fact is enough for all necessary expenses. It would not be possible for one to make this same trip, with no railroad fare to pay, for the amount named above, traveling in the same comfort.

An exceptional point is the fact that the party, which will be limited to twenty people, will be in charge of an experienced tourist agent who knows every point of interest to be visited most thoroughly. The opportunity for people in moderate circumstances to enjoy a beautiful trip is unexcelled—a chance to visit the land of sunshine, oranges and flowers at a trifle over \$4.00 per day.

Many Janesville people have made this trip with Prof. Turner and speak highly of the entire arrangement.
